NO. 66258-T

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office APR 05 2000

Returned to applicant for correction _____

Corrected application filed _____

Map filed APR 05 2000 under 66253

The applicant **John and Lura K. Weaver** hereby make application for permission to change the **point of diversion** of water heretofore appropriated under **64860**

1. The source of water is **Underground**
2. The amount of water to be changed **0.066 cfs**
3. The water to be used for **Irrigation and domestic**
4. The water heretofore permitted for **Irrigation and domestic**
5. The water is to be diverted at the following point **SW¼ NE¼, Sec. 5, T.10N., R.24E., MDB&M, or at a point from which the NE Corner of said Sec. 5 bears N 26° 00' 51" E a distance of 3055 feet.**
6. The existing permitted point of diversion is located within **SE¼ NE¼, of Sec 5, T10N, R.24E., MDB&M, or at a point from which the E¼ corner of said Sec. 5, T.10N., R.24E., MDB&M bears S 88° E, a distance of 600 feet.**
7. Proposed place of use **Portions of the NE¼, Sec. 5 and the W½ SW¼ NW¼, Sec. 4, T.10N, R.24E, MDB&M (93 acres)**
8. Existing place of use **No Change**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **Well, pump and sprinklers**
12. Estimated cost of works **\$30,000.00**
13. Estimated time required to construct works **3 years**
14. Estimated time required to complete the application of water to beneficial use **5 years**
15. Remarks:

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 64860 is issued subject to the terms and conditions imposed in said Permit 64860 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Temporary Permits 66256-T, 66257-T, and 66258-T, shall not exceed 372.0 acre-feet annually for the irrigation of 93.0 acres within the described place of use.

The total combined duty of water under Temporary Permits 66256-T, 66257-T, and 66258-T, and any waters of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 372.0 acre-feet per year for the irrigation of 93.0 acres. The permittee is responsible for insuring delivery of the entitled decreed and storage waters that are supplemental to Temporary Permits 66256-T, 66257-T, and 66258-T. In any year that the Walker River Irrigation District declares a full allocation of decreed waters to the priority years of C-125 claims supplemental to Temporary Permits 66256-T, 66257-T, and 66258-T, underground water shall not be pumped from the wells described in these temporary permits. In any year that the Walker River Irrigation District has no decreed or storage water, or declares a reduced allocation of surface waters to the priority years of C-125 claims supplemental to Temporary Permits 66256-T, 66257-T, and 66258-T, then the place of use of the temporary permits can be irrigated with underground water, but not to exceed duty of 4.0 acre-feet per acre per year from the total of decreed, storage, and underground waters.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on **May 15, 2001** at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.066 cubic feet per second, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

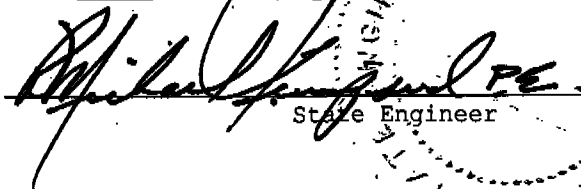

Map in support of proof of beneficial use shall be filed on or before:

TEMPORARY

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,

State Engineer of Nevada, have hereunto set
